

TITLE 267 – NEBRASKA OIL AND GAS CONSERVATION COMMISSION

CHAPTER 3 – DRILLING, DEVELOPMENT, PRODUCING AND ABANDONMENT

021 **DISPOSAL OF GAS**

Gas produced in connection with the production of oil shall be flared and burned where there is no market at the well or use on the lease for such gas. The operators of gasoline plants operated for the extraction of liquid hydrocarbons from the gas shall burn the residue gas in flares where no market exists at such plant for the residue gas or when the gas is not returned to an oil pool or field for pressure maintenance or repressuring of the oil pool or field.
